Summary of discussion. — Some new tanks have been constructed in this taluk. But wet lands under them, are not given out on the ground that they contain date trees. By this the object of the Government in constructing such tanks, is defeated. Therefore, lands which are capable of being cultivated with wet crops should be let out, irrespective of date trees standing on them.

Dewan's reply. — No reservation on account of date trees is required of lands fit for paddy cultivation. The Deputy Commissioner will be directed to inquire

serve that the land was well stocked with Mendi trees as will be seen in the Dewani's Proceedings No 5475/154 (3) of the 7th August 1891.

2. The lands referred to in the Proceedings under submission contain trees as detailed in the margin and in accordance with the spirit of the Government Proceedings alluded to in the preceding paragraph, these lands may as well be considered as those well stocked with the trees. By the grant of lands for grazing purposes alone under the Conditions prescribed in the Dewani's Proceedings quoted in the 1st para, I do not apprehend any loss to Government or damage to trees in as much as it does, in no way interfere with the drawing of the toddy from the trees standing on the lands. In other words the Government will be gainer by the Land Revenue in

Sir,

In forwarding herewith, the Arsikere Taluk amildar's report No 1884/22, dated 17th June 1893, regarding the application of one Ranjappa, for survey No 63, in the village of Talatore, for grazing purposes I have the honor to report that in the amildar states that there are about 60 large and 600 small date trees in the land and that the applicant states that he would not meddle with

those trees

As the land contains a large number of date trees, I solicit instructions whether it may be granted to the applicant. This survey no is stated to have been not included in the list of date trees reserved for Government for Toddy drawing purposes.
